Talari Receives *Unified Communications*[®] Magazine's 2009 Product of the Year Award

Mercury APN Appliance Family Recognized for Exceptional Innovation

Cupertino, Calif., April 15, 2010 – [Talari Networks, Inc.](#) — the company bringing WAN virtualization and cloud economics to Enterprise networking — today announced that Technology Marketing Corporation (TMC[®]) has named the [Mercury APN Appliance Family](#) as a recipient of its 2009 *Unified Communications* magazine Product of the Year Award.

The [2009 Unified Communications Product of the Year Award](#) distinguishes those companies that brought ground-breaking advancements to Unified Communication technologies in the past year. Winners of the Product of the Year Awards have demonstrated to the editors of Unified Communications that their products or services have gone the extra mile to help improve both the customer experience and the ROI for the companies that use them.

"The [Adaptive Private Networking \(APN\)](#) technology in the Mercury family of appliances delivers a unique solution to [increase WAN bandwidth](#) while [reducing WAN costs](#). APN's ability to aggregate low cost bandwidth while [increasing WAN reliability](#) is very compelling to customers," said Keith Morris, Vice President of Marketing at Talari. "We are very pleased to receive this positive industry recognition from Unified Communication magazine and TMC."

"It is an honor to grant Talari Networks with a 2009 Product of the Year Award for their Mercury APN Appliance Family. Talari Networks has proven their dedication to quality and excellence while supporting the needs in the marketplace," stated [Rich Tehrani](#), CEO, TMC. "We look forward to seeing continued advancement in technology solutions from Talari Networks in the future."

A complete list of Product of the Year Award winners will be published in the March/April 2010 issue of *Unified Communications* magazine, www.uc-mag.com.

About *Unified Communications* magazine

Launched in July 2007, *Unified Communications* magazine is devoted to educating enterprise decision makers on why and how they need to deploy unified communications (UC) solutions. Every issue of Unified Communications magazine features a comprehensive news section; case studies of successful deployments and lessons learned; interviews with leading hardware and software companies; and an 'industry' section, featuring analysis of important mergers and acquisition, partnerships and a Wall Street perspective on the unified communications market. Unified Communications has a readership of 100,000. For more information, please visit www.uc-mag.com.

About Talari Networks

Adaptive Private Networking does for the Enterprise WAN what RAID did for storage. Talari's Mercury line of Adaptive Private Networking appliances delivers a network with 30 to 100 times the bits per dollar, ongoing WAN costs reduced by 40% to 90%, and greater reliability than existing corporate WANs, transforming virtualized-WANs to bring Moore's Law and Internet economics to Enterprise WAN buyers, outsourcers and MSPs. For more information, please visit Talari Networks' website at www.talari.com.
