

Talari's Comprehensive SD-WAN Product Suite Wins 2016 BIG Innovation Award

SAN JOSE, Calif. – February 23, 2016 — [Talari](#), the proven technology innovator and market leader of Software Defined WAN (SD-WAN) solutions that help businesses perform brilliantly with the creation of a smart network that proactively manages capacity, quality and performance, today announced its comprehensive SD-WAN product suite has been named a leader and winner in the [2016 BIG Innovation Awards](#) presented by the Business Intelligence Group.

Talari provides a smart, simple and secure SD-WAN solution that works across any network type including [Hybrid WANs](#), [Internet-as-WAN](#), [WAN to Cloud](#) or [WAN Optimization](#) enabled networks. The company's THINKING SD-WAN simplifies management and administration, and redefines network resiliency and application performance with its patented real-time, packet by packet intelligence.

"Our Talari SD-WAN solution continues to have a positive impact on the hundreds of customers that we serve worldwide," said Kevin Gavin, CMO at Talari. "This award confirms feedback we have been receiving from our customers, as well as industry analysts, that our widely used, industry-leading SD-WAN technology brings dramatic improvements to network performance and meets the demands of businesses of all sizes. We thank Business Intelligence Group for honoring us for our innovation in this fast-growing industry and we will continue to push the boundaries of our technology moving forward."

"It was clear from our judges that Talari's entire product suite was deserving of being recognized as a leader in innovation and we are proud to award them the 2016 BIG Innovation Award," said Russ Fordyce, managing director of the Business Intelligence Group. "Congratulations to the entire team. This is well-deserved recognition of your pursuit of excellence and creativity in solving problems."

Organizations from across the globe submitted their recent innovations for consideration in the 2016 BIG Innovation Awards. Nominations were then judged by a select group of business leaders and executives who volunteer their time and expertise to score submissions and provide feedback.

About Talari

[Talari](#), the leading provider of Software Defined WAN (SD-WAN) solutions, is changing the way companies think about, create and manage their WAN by giving the network brainwidth. Only Talari's THINKING SD-WAN proactively manages capacity, reliability and performance, packet by packet—to keep critical applications running, reduce costs and liberate IT to innovate new ways for the company to be brilliant. About Business Intelligence Group

The Business Intelligence Group was founded with the mission of recognizing true talent and superior performance in the business world. Unlike other industry and [business award](#) programs, business executives—those with experience and knowledge—judge the programs. The organization's proprietary and unique scoring system selectively measures performance across multiple business domains and then rewards those companies whose achievements stand above those of their peers.
