

Talari Networks Awarded a 2016 INTERNET TELEPHONY SDN Excellence Award

Talari Aware 2.0 Recognized for Exceptional Innovation

SAN JOSE, Calif. — May. 10, 2016 – [Talari Networks](#), the trusted technology innovator and market leader of Software Defined WAN (SD-WAN) solutions, announced today that [TMC](#), a global, integrated media company, has awarded Talari Aware 2.0 a 2016 INTERNET TELEPHONY SDN Excellence Award.

Talari Aware is a centralized management system that gives IT staff the ability to configure, monitor, and analyze a Talari SD-WAN. It simplifies and reduces the time associated with deploying Talari appliances as well as provides access to detailed performance data correlated across the network. These capabilities deliver an easy to manage SD-WAN with unprecedented visibility into network and application performance. Talari Aware 2.0 in Amazon Web Services (AWS) brings an easy-to-deploy SD-WAN centralized management solution to the cloud. It can be deployed in a standalone manner or as a disaster recovery option.

“Talari Aware simplifies many common management tasks and provides consistency in configuration and monitoring,” said John Dickey, president and COO at Talari Networks. “This solution was designed to make the lives of IT staff easier as they work with their SD-WAN and we are glad to see that it has been recognized for its excellence.”

“Congratulations to Talari Networks for receiving a 2016 INTERNET TELEPHONY SDN Excellence Award,” said [Rich Tehrani](#), CEO, TMC. “Talari Aware 2.0 has demonstrated true innovation and is leading the way for Software Defined Networking. I look forward to continued excellence from Talari Networks in 2016 and beyond.”

The INTERNET TELEPHONY SDN Excellence Awards have been bestowed upon companies that demonstrate the innovation, vision, and execution to deliver software-based networking tools to support different and unique communities of interest.

Winners of the SDN Excellence Award will be featured in the June 2016 issue of [INTERNET TELEPHONY magazine](#).

About Talari Networks

Talari Networks, the trusted SD-WAN technology and market leader, engineers the internet and branch for maximum business impact by designing fail-safe WANs that deliver superior business-critical application reliability and resiliency, while unlocking the simplification and cost reduction benefits of branch consolidation.

Talari’s comprehensive solution supports a variety of network services in physical, virtual and cloud locations, which can be acquired through perpetual licensing, monthly subscription rates or as-a-service. To learn more about Talari, visit www.talari.com.

Talari's solution has innovated to its fifth generation of product, deriving knowledge over the last eight years from billions of packets served across thousands of customer deployments in 40 countries.
